HERE'S WHY YOU SHOULD TAKE THE FLASH OFF YOUR DIGITAL CAMERA

When you are first starting out with lighting, the natural thing to do is use your on-camera flash or a hotshoe speedlight. However, unless you're going for a very specific look, this will generally not give you the best results.

A LITTLE BIT ABOUT ME

My name is Luke. I'm a photographer by profession, Irish by birth, and I aim to be the best photographer you can get. I have worked as a photographer for 11 years now, worked as a photojournalist with the East Cork Journal in Midleton, County Cork for 9 months. Covered all major events from Sporting events to festivals and currently coming into the wedding side coverage of the job.

PASSION

I'm of one of lucky people who works to love with what they love. I'm passionate about photography and enjoy working with many people.

MAGIC MOMENTS

In my photos, I try to capture that special moment of life, those funny, sad and intimate moments that turns photos into memories. I try to capture that happy soul of a person or an event.
I do photography all over Ireland and will do weddings all over the country of Ireland and outside Ireland -Photographer, Kerry, Ireland, Europe.

MEET THE TEAM

LUKE KINDELAN
PHOTOGRAPHER

Luke Kindelan is a Kerry based wedding, portrait and, commercial photographer. He is a self-taught photographer with good knowledge of Photoshop. Some of his images tend towards the realistic, others towards the fantastic, but all of them display a skill with both a camera and post-processing techniques that's truly remarkable. Photography is a crazy marriage of technology and art, and you need to be in control of your tools. Luke is equally at home connecting with subjects behind the camera, and perfecting their image in front of a computer. Clients receive the benefit of his artistic eye and his technical mastery honed over a decade of photography experience.
